

HIERROS MANU, S.L.
Pol. Balastrain, parcela 5, naves Ay B
20.140 Andoain (Spain)

8th of March 2016

Sirs,

We would like to congratulate your company HIERROS MANU, S.L. and your partner MUPAP INTERNACIONAL procuring your services in our disinvestment project of the Pulp Mill located in Venizel (France). Within the six months of the disinvestment project, your company has shown diligence and dedication to finish work in time, which greatly benefited other pending projects we are handling.

The disinvestment, scrapping and demolition to ground level has been done fulfilling the Health and Safety Standards of our company.

All finishing works have been done according to our initial requirement and accomplishing our expectations.

Again, I would like to express my gratitude in providing your 100% in completing our project. We would not hesitate to refer MUPAP INTERNACIONAL and HIERROS MANU, S.L. to other organizations who are also in need of quality services from a contractor.

I hope that this is the start of our continuous relationship and future success.

Kind regards,

Fernando Carroquino
SAICA Paper Industrial and Technical Director
